

MINERAL WATER FROM MOUNT MANIVA

WELLNESS, SUSTAINABILITY, BEAUTY

"At Maniva we have always listened to market needs, and we try to meet them with distinctive and sustainable products; it's an ambitious challenge and we face it every day with the typical stubbornness of hill people. We are proud to be the only company in Italy with such a wide range of products."

Michele Foglio A.D. Maniva SPA Group

THE MANIVA SPRING; NATURALLY ALKALINE

At the heart of the Rhaetian Alps, not far from the medieval village of Bagolino, there is a mountain containing a precious resource: Maniva natural mineral water.

The water that flows from this precious spring has excellent mineral balance and a naturally alkaline pH.

ACQUA MANIVA IS:

ALPINE - it springs from the heart of Mount Maniva

ALKALINE - pH 8

LIGHT - fixed residue of 98 mg/l

LOW SODIUM - only 0.0002% sodium

IDEAL FOR FEEDING BABIES

LONG LIVE OUR CELLS!

To stay healthy, the cells in our body need to live in an **ALKALINE EXTRACELLULAR ENVIRONMENT** that nourishes and oxygenates them, as well as eliminate toxins.

This way they remain young and live longer; and so do we.

Cells are surrounded by extracellular fluid (ECF). A bad diet and lack of hydration cause this fluid to acidify and become a predominantly gel-like substance. This leads to cellular inflammation, aging and disease. Alkaline foods and water allow us to counteract this, thereby keeping our cells - and ourselves - young and vital.

ALESSANDRO TARGHETTA
Specialist in Geriatrics and Gerontology, Phytotherapist, Homeopath and Nutritionist

Proper nutrition, hydration, movement, relaxation and sleep are essential to preventing and curing many diseases. A diet that incorporates **80% ALKALINE FOODS AND 20% ACIDIC FOODS** effectively cleanses the body and allows us to live longer and healthier lives.

Alkalinity for a long life in good health!
