

THE ESSENCE OF TUSCANY,
SUSTAINABILITY, LIGHTNESS

VERNA LINES

VERNA
OLIGOMINERALE NATURALE

THE ESSENCE OF TUSCANY

The heart of the Casentino conceals an **authentic treasure**:
Verna, a spring of mineral water as pure and untouched
as the territory that encloses it.

A UNIQUE SPRING

Penna Mount is located in the heart of the Foreste Casentinesi National Park, in the municipality of Chiusi della Verna (Arezzo). On its southern slope, at an altitude of 1128 meters, a sanctuary stands, it's called "della Verna" and it's dedicated to St. Francis of Assisi, who lived and meditated in these places. On these same slopes, surrounded by untouched nature, Acqua Verna water was born. The Verna water spring is located a short distance from the place of peace, contemplation and beauty that it is named after and it's in a unique setting whose landscape still appears today as pure as it was in the Middle Ages.

The new Verna **Vetro AQ** line brings a note of unmistakable **elegance**
and originality in the most **exclusive restaurants and clubs**.
